

Summary of Terms and Conditions for the acceptance of all Advertising.

The issue of an Order Confirmation shall amount to an offer by Danby Advertising, acting on the behalf of the publisher, to the advertiser to enter into a contract. The signature and return of an Order Confirmation shall amount to the advertisers acceptance of the contract.

The advertiser will ensure that copy is received in the correct format before the due copy date. If the advertiser does not fully comply the publisher reserves the right to repeat the advertisers previous copy, if available, or charge the gross amount for the space booked as shown in the rate card section.

The advertiser is responsible for ensuring the advertisement complies with any legal or regulatory requirements. The publisher reserves the right to suspend any advertisement deemed as in breach of its requirements, without breach of contract.

Any production work deemed necessary to bring any advertisements to the publishers required format will be charged for.

An advertiser may change the size or shape of an advertisement, or cancel an advertisement by giving notice in writing not less than 12 weeks before copy date. Any cancellation notice issued other than 12 weeks before copy date shall be ineffective and the advertiser shall be liable to pay the gross amount for the space booked as shown on the rate card.

The publisher and editor reserve the right to change the reserved location of an advertisement at any time for good reason, without breach of contract.

All amounts quoted are exclusive of VAT, which shall be due at the rate ruling on the payment date.

Pre-payment is required before copy date for all advertising. Where credit terms are agreed, advertising will be invoiced on publication and payment will be due 30 days from the date of invoice. Credit Forms available from RSGB HQ. There must be no sub-selling of RSGB advertising space without written permission from the RSGB.

Any claim by the advertiser, based on any error or omission in the advertisement, shall be notified to the publisher not more than 7 days after receipt of their invoice, as supplied on publication. A full copy of the Terms and Conditions for the acceptance of advertising is available on request.

The Radio Society of Great Britain and Danby Advertising will not accept any liability for quality of reproduction when files are not supplied in the accepted format, or for error where a suitable proof has not been provided.

Copy provided in formats other than those accepted may incur a pre-press production charge on the amount of work involved to bring them to the specified format.

If you want to reach people interested in radio, computers or electronics then you need to know about RadCom !

There are around 80,000 amateur radio licenses issued in the UK (2015) and they make up the backbone of Britain's radio engineers, wireless system technicians and electronic gurus. The only advertising medium that reaches the majority of these people is RadCom.

RadCom is easily the biggest circulation amateur radio magazine in the UK and no one has more information every month on the subject. At a 100 page issue size, RadCom is around 30% bigger than its nearest rival and contains more content than any other magazine in the market.

As part of our on-going development we are producing a lively, dynamic and forward-looking magazine catering for the fastest growing circulation in the market. As a subscription only magazine, RadCom is for those people who are firmly committed to radio as a hobby, with every reader actively scanning the pages every month. RadCom's advertising reach extends to almost every radio amateur in the UK and it is easily the best medium to target this vibrant market.

- **Ideal for recruitment**
- **Online RadCom also available**
- **Two additional online magazines**
- **Read worldwide with 10% of Members overseas**
- **Has a highly computer literate readership**
- **Membership are avid users of technology**
- **The biggest radio magazine to reach Britain's radio amateurs**

Raspberry Pi and Arduino projects
Antenna theory and construction
- Regular Columns**
Everything from EMC to HF operating and QRP to Homebrew

Who are Radio Amateurs?

In a recent survey of Radio Society of Great Britain Members it was found that:

- They are affluent with 60% being HF orientated where equipment can cost between £2000 and £5000
- Most are A1 or B1 consumers and highly skilled individuals
- 90% plus of amateurs describe themselves as PC literate
- Of the same amateurs over three quarters list PCs as an interest they have outside radio
- 75% of radio amateurs are constructors of things electronic
- They are decision makers in their work environment
- Amateurs list DIY and gardening as major interests along with large numbers who enjoy military history, aircraft and country pursuits

So, if you want to reach a regular and loyal readership, interested in all things electronic and with money to spend then RadCom is the advertising medium to use!
